Outreach Workshop on Law and Emerging Economies

May 5, 2011
2:45-6:00pm
University of Wisconsin Law School
Lubar Commons (7200 Law)

Workshop overview

It is no secret that the global economic structure is changing with several “developing” countries playing an important role in the global market. UW Law School is working on a project that looks at these emerging economies – India, Brazil and China – and this workshop will launch this initiative. It will provide an overview of the project followed by presentations on each country. While UW-Madison has several country initiatives, this project will look at these emerging economies in a holistic manner.

2:45-3:00 Registration

3:00-3:05 Welcome
