Debtor-Creditor Law Conference

*A Tradition of Excellence in Bankruptcy Education for Thirty Four Years*

The practices of nearly all lawyers are regularly and significantly affected by problems arising from the creation and nonpayment of debts. All lawyers need a greater understanding of the problems of borrowers and lenders to provide adequate counsel to clients both inside and outside the commercial field.

This program annually provides practice-oriented instruction that is valuable to all attorneys — not simply those attorneys whose practice is devoted exclusively to handling consumer and business bankruptcies. The speaker’s panel, selected by the law school, has identified issues for this year’s conference which examine issues at the forefront of bankruptcy practice.

If you have never attended the Debtor Creditor Law Conference in the past, you should be aware of two special features which have become the hallmark of this program and which prior participants have found extremely interesting and educational. The first feature of the conference is its use of the problem approach to present the material. Each presentation by the faculty is structured around a problem. Each problem was selected for its current importance in debtor-creditor law and its potential interest for the practitioners in attendance. Both general practitioners and specialists will benefit from the opportunity to consider these problems with the outstanding faculty. Problems will be discussed from both creditor and debtor viewpoints.

The second feature of the program is the format of the presentations, which involves a primary speaker with substantial comment from the entire faculty. In addition, comments and questions from the lawyers in attendance are encouraged. The result of this exchange of views, strategies, comments, and anecdotes is an interesting program that is practice oriented and useful to all persons attending the program.
